Consumer Bankers Association ("CBA"),

Stop your challenge to "Indiana's Telephone Privacy Law" in proceedings before the Federal Communications Commission immediately.

**DO NOT CALL US, WE WILL CALL YOU!**

Your members' offices/branches and business hours are more than sufficient to

satisfy their/your GREED. ENOUGH IS ENOUGH. What more do you want/need? The

U. S. Congress just tightened the Bankruptcy laws with which I heartily agree.

The country, particularly the State of Indiana, does not need, nor want your predatory, intrusive, aggravating telephone calls.

The HITE PRIVACY NOTICE is attached for your dissemination to, and compliance

by, ALL CBA members.

The Federal Communications Commission is receiving a copy of this message with reference to Docket No. 02-278 providing my vehement opposition to your petition.

Richard D. Hite
